

Lia Parra

Senior Product Designer - B2B SaaS, AI & Enterprise Systems

liangelyp@gmail.com • LinkedIn • Portfolio • Argentina / Remote

Summary

Product Designer specializing in complex B2B SaaS, AI and enterprise systems. I turn ambiguous workflows and dense data into scalable, usable interfaces through interaction design, information architecture and design systems. My background spans brand and marketing design, building illow's UX practice as its sole designer, and evolving the product at BigID following the acquisition.

Skills

Product & AI Design: Enterprise UX · Information architecture · Interaction design · Product Thinking

Design Systems: Atomic Design · Component libraries · Design tokens · Prototyping · WCAG 2.1 AA

Design & Prototyping: Figma · Adobe Creative Suite · Google AI Studio · Lovable

Frontend & AI Tools: React (basic) · Tailwind CSS · Claude · Cursor · v0

Collaboration & Methods: Jira · Linear · Notion · Slack · ClickUp · Agile · Cross-functional alignment

Languages: Spanish (Native) · English (Advanced / Business proficient)

Experience

BigID (Data Privacy & Governance SaaS, via acquisition of illow)

2024 – 2026

Remote

Senior UX & Product Designer

- Led UX/UI design as illow's privacy platform evolved into an enterprise solution for global organizations.
- Translated complex privacy and governance workflows into modular, reusable interaction patterns.
- Shaped AI-driven product experiences, aligning user needs, product goals and technical constraints.
- Partnered with product and engineering from problem definition through design handoff and implementation.

illow (B2B SaaS Privacy & Consent Management)

2021 – 2024

Remote

Product Designer & Marketing Lead | Sole UX Designer

- Led end-to-end UX/UI for the cookie and consent management platform as its sole UX designer, establishing the company's UX practice.
- Owned the visual identity, website, landing pages and marketing assets, then expanded into end-to-end product design.
- Designed scalable interfaces for dynamic data and multi-tenant configurations serving international clients.
- Built reusable component libraries and collaborated with engineering on implementation and design handoff.

Selected Impact

- illow earned 12+ G2 badges during my tenure, including Best Usability, Easiest Setup and Most Implementable (Fall 2023).
- Supported product maturity and design continuity through illow's acquisition by BigID.

Education

B.A. in Graphic Design - Universidad Rafael Bellosó Chacín

2009 – 2013

UX/UI Design - UTN Buenos Aires

2023

Interests & Hobbies

Fine Arts · Cooking · Painting · Reading
